DESCRIPTORS	*Academic Libraries; College Libraries; Comparative Analysis; Enrollment; Higher Education; Library Collections; Library Expenditures; Library Personnel; Library Research; Library Services; *Library Statistics; Statistical Data
IDENTIFIERS	*Colorado

ABSTRACT

The survey data on Colorado's academic libraries is organized by sector (i.e., public or private) and board (e.g., University of Colorado, State Board of Agriculture, Colorado Community College and Occupational Education System). There are library-by-library statistics and summary figures for boards and sectors. Full-time equivalent (FTE) student enrollment, and educational and general expenditures, were obtained for each institution from other parts of the Integrated Post-secondary Education Data System (IPEDS) survey. Tables of statistics and input-output measures include: Fiscal Year (FY) 1994 Total FTE Enrollment; Branch Libraries; Library Staff; Staff Expenditures; Information Resources Expenditures; Miscellaneous Operating Expenditures; Library Collections; Library Services; and Library Service Per Typical Week. The remainder of the document contains charts which compare university, college, and community college libraries on selected statistics. (MAS)

INTRODUCTION

The survey data are organized in tables by sector (i.e., public or private) and board (e.g., University of Colorado, State Board of Agriculture, Colorado Community College & Occupational Education System). There are library-by-library statistics and summary figures for boards and sectors. FTE Student Enrollment and Educational & General Expenditures were obtained for each institution from other parts of the IPEDS survey. Following are charts comparing university, college, and community college libraries on selected statistics. Please note that the FTE enrollment figure for University of Colorado Health Sciences Center includes, at the librarian's request, teaching faculty and research fellows.

From among their CCHE assigned national peers, we asked directors to select the libraries to which they are interested in being compared. We are obtaining 1994 IPEDS library surveys from these out-of-state peer institutions to produce 1994 Peer Academic Library reports (PALS).

In addition to **Statistics & Input-Output Measures** and the **PAL Reports**, we are always interested and willing to assist libraries in conducting research. The services of the Library Research Service are available to all Colorado libraries at no charge on a first-come, first-served basis. Please keep us informed about your changing management information needs.
